

## BRITAIN MUST FIND JOBS FOR 3,000,000 HE TELLS FRANCE

That Must Govern Course on  
Reparations, Says Lord  
Derby.

PARIS, Dec. 15.—Intimation that at the coming reparation discussions Britain will take her 3,000,000 unemployed into consideration in spite of her feelings for France was made yesterday by Lord Derby, the British Ambassador, at a luncheon in his honor.

His implication that England must find means of putting her men back to work, even if it means a financial rapprochement with Germany, made a deep impression upon his French hearers, especially as Lord Derby is known to represent the most pro-French opinion in his country.

"We know you have suffered," said the Ambassador. "We know of the devastated regions. But I will take any of you to my estate in Northern England and show you tens, hundreds, thousands of men who are now walking the streets looking for work."

"These are our devastated regions. If Mr. Lloyd George at the forthcoming discussions were to forget them, he would be acting falsely toward his country."

The comparative magnitude of these "devastated regions" in England is a compelling motive in maintaining British opposition to the French policy on reparations. Against the 3,000,000 unemployed in England France has only 16,000.

The new Belgian Premier, M. Thunis, in an interview, declared his country will support the French in London, but will try to act as a hyphen between England and France.

However, he said as regards payment by Germany no more delay will be tolerated.

WARSAW, Dec. 15 (Associated Press).—The Russian Soviet Government's first payment to Poland under the Treaty of Peace signed at Riga on March 18, last, has arrived in the form of gold and jewels to the value of \$5,000,000,000 Polish marks.

Diamonds, rubies and other precious stones and gold bars, filling 100 cases in all, were brought here on a special train under military escort. The bullion, weighing 1,250 pounds, gives Poland its first substantial gold reserve.

This, together with proceeds from the proposed tax of from 8 to 15 per cent. on all property, will nearly cover all of Poland's internal debts. The tax is expected to yield \$5,000,000,000 marks. It is estimated by financiers that about 200,000,000,000 marks (paper) are now in circulation in the country.

## This Handsome Special Model of The VOCALION

With the Graduola. Made to sell

### How the Opportunity Arose

Originally all Vocalions were made in America—those sold at home and those shipped abroad, but when the demand for this wonderful instrument grew, as it did with amazing rapidity all over the world, it was found that, owing to freight and import duties, it was cheaper to manufacture in foreign countries.

Factories were therefore established in England, Canada and Australia and the foreign trade is now supplied from these centers.

At the time this change in our manufacturing policy went into effect we had in our factories in process of construction, a quantity of Vocalions designed especially for the export trade. Work upon these in-

struments was temporarily stopped, but they are now being finished and a number will be ready in time for the Christmas season.

These instruments are identical with our regular American models, except for slight differences in size and case design. In Workmanship, Mechanism and Tone they are in all respects up to Aeolian standards which mean they are the best Phonographs in the World.

Daily shipments are being received from our factories and will continue until Christmas.

Between now and December twenty-fourth we offer this instrument at the most exceptional price of \$85, which we unhesitatingly pronounce the greatest phonograph value ever offered.

### The Wonderful Graduola

This instrument is equipped with the exclusive Aeolian device—the Graduola. No Vocalion so equipped has ever been offered at anywhere near so low a price before. We are sure that no person, considering the purchase of a phonograph will wish to overlook this opportunity.

The Graduola makes the phonograph complete—makes it an instrument for you to play as well as hear. With this device in your hands you can vary the tone-volume from loud to soft by gradual progression, or quickly to accent a single note or phrase—you shade the melody to suit your mood of the moment. Your effects are always musical, always pleasing, even though you are not trained in music.

Until Christmas Eve we will deliver this instrument with \$10 worth of records of your own selection and two record albums. Price complete, \$98. For a small down payment.
